

**Specialist Sheep Products**

# **Designed & Made For New Zealand**

**We've spent over 70 years  
helping New Zealand Sheep  
Farmers excel in what they do  
best — producing world class  
sheep products for the world.**

*Want to learn more?*

## Made for our Conditions. Made for New Zealand.

There's a reason MSD Animal Health and Allflex came together. Between us, we offer one of the country's largest sheep product portfolios — designed and developed for New Zealand's sheep and our unique conditions. Our teams are aligned and guided by one mission - **The Science of Healthier Animals™**.

Together, Allflex and MSD offer a comprehensive suite of animal health and management products connected through identification, traceability and monitoring solutions. These solutions are a direct result of our drive to help New Zealand sheep farmers produce first class products on the world stage — now and in the future.

World class products do not arise by accident. They rely on an attitude of constant improvement, a skill practiced by New Zealand farmers daily. To

support this we're leading the way in research and development to advance disease prevention, animal health, on-farm efficiency, productivity and profitability.

The joint expertise of MSD Animal Health & Allflex, positions us as the ideal partner to help you excel at what you do best. And just like you, we're proud of our kiwi heritage, supporting New Zealand sheep farmers for over 70 years. Every product is made first and foremost for your farm and designed for New Zealand's conditions — from Cape Reinga to Bluff.

Take a look at our range of products and find the best solution for your farm. Our team of locals are on hand ready to help if you need any support.

# Prevent. Protect. Perform.

## Clostridial Vaccines

**Clostridial diseases, including Tetanus, Pulpy Kidney, Blackleg, Malignant Oedema and Black Disease can strike rapidly and are almost always fatal — the only viable means of control is vaccination.**

Talk to your vet or rural retailer about how MSD's Clostridial Vaccines can benefit your flock.

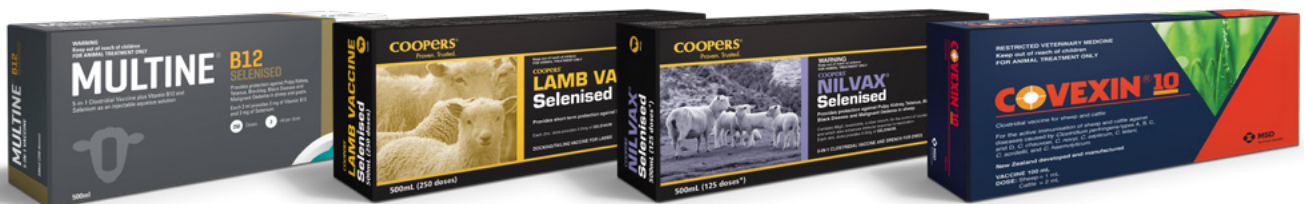

Vaccinations prevent & control.

Prevent widespread disease.

Improve animal welfare.

\*COVEXIN® 10 is AVAILABLE ONLY UNDER VETERINARY AUTHORISATION. The Multine® range, Nilvax® and Lamb Vaccine are available from your vet or rural retailer.

**Did you know?**  
 Our sheep vaccines are kept chilled during transportation by wool insulation — An environmentally responsible, innovative insulation packaging solution made from sheep's wool.

# Sheep Performance Vaccines

**Toxoplasmosis, Campylobacteriosis and Salmonellosis are three potentially devastating diseases that can cause abortion storms.**

Campylobacteriosis and Salmonellosis can also affect humans. The most effective means of prevention and control is vaccination.

Talk to your vet to see how MSD's Sheep Performance Vaccines can benefit you and your flock.

Optimise lamb numbers.

Protect against abortions.

Vaccination protects your stock, and can also protect you.

\*Toxovax®, Campyvox®4, Salvexin®+B and Androvax® plus are AVAILABLE ONLY UNDER VETERINARY AUTHORISATION. Toxovax® is made-to-order — Only available between 18th October 2021 – 26th April 2022.

# COOPERS<sup>®</sup> Drenches, Pour-Ons & Dips

**Worms, flies and lice within a flock can cause stress, malnutrition, lost productivity and animal welfare issues. The use of drenches, pour-ons & dips on farms can help prevent and treat outbreaks.**

Talk to your vet or rural retailer about how the COOPERS<sup>®</sup> range from MSD Animal Health can benefit your flock.

Proven & trusted range.

Protect your flock from parasites.

# Allflex Sheep Tags

**Designed in New Zealand, Allflex EID tags allow farmers to monitor their animals as individuals helping to drive overall flock performance.**

We are the only provider of EID tags paired with a tissue sampling unit (TSU) in New Zealand.

Get in touch with your local Allflex Area Manager or rural retailers about which Allflex tag is the best for your flock.

## **Lightweight Sheep Button Tag (EID)**

A premium, high performance option.

## **RapID Tag (EID) HDX**

One-piece tag system suitable for all flocks.

## **TSU Packs**

Lightweight sheep button tags paired with a tissue sampling unit (TSU).

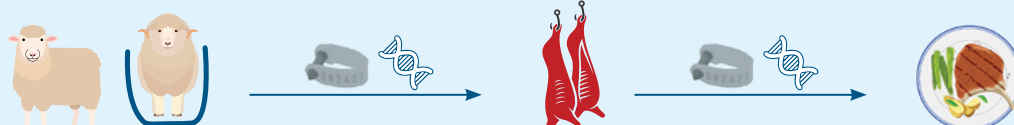

## **Flexitag**

One-piece visual tag for easy flock or year marking.

## **Lifetime Electronic Record**

From Gate to Plate

## Raise the Baa

Allflex EID Tag technology provides you with intelligent, actionable management information to improve animal management and health outcomes on your farm.

Trusted by farmers across New Zealand, we've put together what a few of them have to say about their experience using Allflex EID tags.

Download 'Raise the Baa' by scanning the QR code below, or get in touch and we'll post you a copy.
